We are most grateful to the COFFEE HOUR BOOK GROUP for their interest and the many fine books contributed by them to our Memorial Book Shelf. Our most pressing problem and one for which we can see no satisfactory solution is that of adequate heat for a building filled with book stacks and open only a few hours a week.

Respectfully submitted,

REPORT OF THE SCHOOL NURSE

The following is my report for the year ending June 30, 1959.

94 pupils had vision tests given by the school nurse.
8 pupils received vision notices.
53 pupils had hearing tests given by the school nurse.
94 pupils were weighed and measured by the school nurse.
92 pupils were inspected by the school nurse.
39 pupils were found in need of dental care.
12 pupils attended pre-registration clinic.
19 pupils attended polio clinics.
24 pupils were checked for smallpox vaccination and necessary follow-up done.
89 pupils participated in tests for albumin and sugar.
93 pupils were instructed in dental health.

In studying the aims of the school health program one finds that health education is becoming another added aim to the list.

The aims of health education:

1. To instruct children and young people so that they may conserve and improve their own health.
2. To promote satisfactory understandings, attitudes and ways of behavior among parents and other adults so that they may maintain and improve the health of home and community.
3. To improve the individual and community life of the future: to work toward a better second generation and still better third generation.

Perhaps in this area we can integrate more health education into our daily living.

My sincere thanks to all who gave their time and effort to make this year a success.

Respectfully submitted,

MRS. ELLEN PEARCE, R.N.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Westmoreland:

I herewith submit my annual report as your Superintendent of Schools:

As I pointed out in my report last year discussion and thorough study of the necessity of having a new school is good procedure, however, continued disagreement will mean that Westmoreland will continue spending money on buildings that are no longer giving the service that should be given and not giving Westmoreland children the start in life that they should have.

A desire for economy is commendable, however, one should be certain that what appears to be economy is not false economy. A new school built now will probably serve the community for fifty years and a difference of $10,000 in the cost which may well be the difference between a good and poor building amounts to about $200 a year on a fifty year basis.

The Written Language Arts Syllabus developed by the teachers of Supervisory Union #60 has been placed in the hands of teachers to be used as a guide in their teaching of Language Arts.

Westmoreland teachers took part with other elementary teachers of the supervisory union at Walpole on January 7th in studying how to improve the mechanics of giving achievement tests and also how to use test results to better advantage. Two educational consultants from the California Test Bureau were in charge of this study.

Approval of the state plan under Title III of the National Defense Education Act was made in November.

Directions of procedure for school districts followed shortly and we are nearly ready to submit our local plan for the use of the federal funds available under this act. As soon as our plan is approved orders will be placed for the equipment to strengthen and improve the areas of mathematics and science.

School board members from Acworth, Alstead, Langdon, Marlow, Walpole and Westmoreland have met several times during the past year to study the possibilities of forming a cooperative district. The greatest interest appeared to be in a cooperative for grades 7-12 and it is hoped that each district meeting will indicate the extent of their interest in the accumulation of more information.

An article in the school warrant in regard to a Helping Teacher should be given serious consideration. It is presented with the view of giving citizens the opportunity to accept or reject what is considered to be a step toward improvement of our educational program.

It was decided at the December Supervisory Union meeting to request each school board to include an article in the school district warrant that would give the district's citizens an opportunity to consider the advisability of adding a helping teacher to the administrative staff of the supervisory union. This article is included in the warrant.

A Helping Teacher is an assistant to the Superintendent who usually spends the most of his or her time working to improve education at the elementary level. The guiding purpose of a Helping Teacher is the improvement of children's learning in school and the realization of this purpose is by helping the classroom teacher help the children. The classroom teacher is helped to develop her best potentialities. The Helping Teacher passes on to the classroom teacher the best of what is being done in other schools in the supervisory union and helps teachers keep abreast of the advances being made in curriculum and methods of teaching.

A helping teacher is an especially qualified teacher who has had a number of years of successful experience and

usually has a master's degree in education covering administration, supervision, child growth and development, curriculum study, guidance, special education, tests and measurements.

The work of the superintendent and helping teacher is closely integrated. They work cooperatively to promote the best possible educational program without duplication of effort.

Mrs. Sandra Whippie replaced Mrs. Theresa Taylor as teacher of grades three and four at the Village School. Mrs. Whippie taught in Munsonville in 1958. Mrs. Arena Damon replaced Mrs. Ellen Pearce as school nurse on January 4, 1960. Mrs. Damon has had several years of experience as a school nurse in Bellows Falls, Vt. Mrs. Elizabeth Chickering was replaced by Mrs. Helen Wyman on January 18, 1960. Mrs. Wyman has completed the requirements for a degree from Keene Teachers College which will be conferred in June. She did her practice teaching in Swanzey.

	Budget Figures	Adjustments by Tax Commission
Estimated Balance	$7,600.00	$7,279.96

State Aid	8,300.00	2,508.51

District assessment	44,708.85	50,820.38
	$61,516.00	$61,516.00

The reduction in receipts is due for the most part to the reduction in state aid which is caused by the increase in equalized valuation as determined by the State Tax Commission. The equalized valuation for Westmoreland has increased from $1,971,079 to $2,342,935.

An enrollment increase from 18 to 22 in grade three and from 15 to 17 in grade four made it necessary to change six third graders from the Village to the East School. The

present classrooms should have no more than twenty five pupils. There are 18, 26, 33 and 33 pupils in our respective classrooms at this time.
